**Patent Data Worksheet**

1. How many total patents were **issued** in each year?

2. Make a bar graph which shows the number of patents issued for each year in the chart.

3. Extra Credit: Make a line graph which shows the total patents applied for AND the total patents issues for each year shown in the data.

4. What was the percentage increase between 1875 and 1910 in patents insured?

5. What do you think the data for 1915 showed?

6. What does this data demonstrate?
