QuickTime Products

The QuickTime family of digital media creation, delivery and playback software lets you deliver live or pre-recorded video and audio to an audience of any size. When combined with QuickTime Player and QuickTime Pro, these applications work together to provide the industry's first end-to-end, standards-based digital media delivery system.

QuickTime Broadcaster
Produce professional-quality live events for online delivery to the desktop or mobile phone — quickly, easily and affordably.
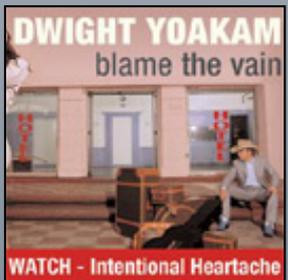

QuickTime Streaming Server
Stream your live and on-demand media in real time to the desktop or mobile phone with this industrial-strength, standards-based server. Deliver everything from QuickTime movies to MPEG-4 video to an internet
