Teacher’s Note:

In October of 1804, the expedition met two traders living among the Arikaras. These men were Joseph Gravelines and Pierre Antione Tabeau, they also helped as interpreters between the expedition and the Indians.

1. First, a council was produced and Lewis smoked the pipe with the Indians and spoke to them about commerce with the white man.
2. Guns were shot to impress the Indians and gifts such as medals, clothes, paint and mirrors to the tribe. The Arikaras refused to drink any alcohol offered them.
3. The biggest excitement to the Arikaras happened to be Lewis and Clark’s black slave, York. York was usually more than happy to show off for the Indians and scare them. The Arikaras named him "The Big Medicine."

5. Sacagawea, Lewis, Clark and York
   [http://www.washington.edu/alumni/columns/sept03/news_lectures.html](http://www.washington.edu/alumni/columns/sept03/news_lectures.html)

6. Sacagawea and Shoshones
